hereby enter into an agreement to establish programs of exchange and collaboration in areas of interest to both parties.

This agreement will serve as a general framework for cooperation between the two parties and is intended to facilitate discussions of more specific programs of collaboration, which will include – but need not be limited to – co-op education in engineering education.

More particularly, both sides agree:

2. to facilitate visits by authorized officials from each university;
3. to strive to establish cooperation in research and to identify opportunities for exchange of faculty and research staff;
4. to identify other areas of possible interest and collaboration;

The procedures and other details with regards to aforementioned elements will be subject of detailed agreements to be added to this framework agreement.

Each institution shall designate one of its members as its representative in charge of the follow-up of this framework agreement. The representatives of the two universities will consult periodically to evaluate past activities and consider additional forms of collaboration.
