

Suranaree University of Technology is Thailand's first autonomous public university, a national research university, a university specializing in science and technology that has gained its experience from past to present, through self-refinement. It has, therefore, progressed into being the nation's leading university that maintains its identity in fostering science and technology graduates, whose knowledge, virtues and wisdoms are applicable for the development of the society, and as a result, turning it into the university with sustainable happiness in the fields of sciences, engineering, agricultural technology, information technology, management technology, public health, medicine and nursing. The goal is to respond to the national development course, with the strong aspiration to be the university of innovation that is also the companion to the society.
