"2024 ZXG PROGRAMME"

FROM JULY 17 TO 23, 2024

Three students from Suranaree University of Technology (SUT) have been selected to participate in the 2024 ZXG Programme, titled "Bridging Campus and Community: Experiencing the Super Ability of Rural Areas by Integrating New Agriculture, Culture, Tourism, and Sports." This prestigious program will be hosted by Guizhou University in the People's Republic of China from July 17-23, 2024.

This opportunity arises from the Memorandum of Understanding (MOU) between SUT and Guizhou University (GZU). The program aims to provide participants with a unique experience by integrating new agricultural practices, cultural exchanges, tourism insights, and sports activities, thus bridging the gap between campus and rural communities.

The theme of the programme is "Bridging Campus and Community: Experiencing the 'Super' Ability of Rural Areas by Integrating New Agriculture, Culture, Tourism, and Sports."

OUR LAST DAY

Tea party :

We learned about tea-drinking culture, tea brewing, and the six different types of tea. We got hands-on experience and tasted the tea together as a group. The tea I enjoy the most is red tea. It has a flavor that is neither too strong nor too mild, making it suitable to drink even with dinner.

TEA TIME

CLOSING CEREMONY

At the closing ceremony, we exchanged experiences and feelings about our time here. We all felt that the time had passed quickly. We enjoyed happiness and fun, and we're all a bit sad that this trip has come to an end. We also want to thank everyone who took such good care of us over the past seven days. We know it wasn't easy. Thank you all very much.

DAY 7

第七天

I would like to thank the CIA of Suranaree University of Technology for giving me this opportunity. I am truly honored to have represented the university during this one-week exchange program. I also appreciate the financial support provided to us, as well as the care and attention from our CIA admin, who followed up and inquired about our well-being while we were there.

I would also like to extend my gratitude to Guizhou University for their excellent support. They were attentive to every detail, no matter how small, and ensured that all our needs were met.

Lastly, I would like to thank my two travel companions for their care and for sharing new insights with me. I also appreciate all the new friends I met at Guizhou University, including those from Cambodia, Russia, and Nanjing University. Everyone was kind, considerate, and friendly. I am grateful to the CIA once again for providing me with this opportunity to gain new experiences and meet so many wonderful people.
