Open House Live 2026 Undergraduate Programs +

The **SUT Open House Live 2026** was successfully conducted over three weeks, serving as an engaging online event that offered prospective students a valuable opportunity to explore academic life and study options at the university.

Hosted by the **Center for International Affairs (CIA)**, Suranaree University of Technology, the event was held over three consecutive weeks, each focusing on a key engineering program:

Week 1: Civil Engineering (March 4, 2026)

Week 2: Mechanical and Aeronautical Engineering (March 11, 2026)

Week 3: Petrochemical and Polymer Engineering (March 18, 2026)

Each session provided participants with comprehensive insights into the university, including academic programs, curriculum structure, and learning approaches. Importantly, senior students from various faculties joined the sessions to share firsthand experiences and provide direct information, offering authentic perspectives on studying at SUT.

In addition, the sessions highlighted global opportunities such as the international Cooperative Education program, student exchange experiences, and various international activities. Participants also received useful information about scholarships for international students, including Royal Scholarship 2026, as well as financial planning advice for self-funded students.

Overall, SUT OPEN HOUSE LIVE 2026 served as an inspiring and informative platform for students considering their future academic paths, equipping them with valuable knowledge, insights, and confidence to make informed decisions about their higher education journey.
