SUT JOINS SWEDEN-THAILAND SUSTAINABLE DEVELOPMENT FORUM 2022

On June 8, 2022, Mr. Lars Andersson, the Chief Innovation Officer at SUT, gave a presentation on "SUT's Entrepreneurship Development for Sustainability" in the Sweden-Thailand Sustainable Development Forum 2022, alongside prominent universities such as Blekinge Institute of Technology, KTH Royal Institute of Technology, Chulalongkorn University, Srinakharinwirot University as well as Thai and Swedish businesses. Mr. Lars's presentation on SUT's entrepreneurship and innovations for society sparked much interest and collaborative opportunities with prospective institutions both from the Swedish academic and private organizations.

Also attending the event, Dr. Mullika Sungsanit, SUT's Vice Rector for Engagement, Innovation and Entrepreneurship and Dr. Wipawee Usaha, Director of Center for International Affairs attended and participated in the online event to share best practices and challenges for international collaborations, sustainable impact technology companies, as well

as balances between environment and community prosperity from perspectives of academic institutions.

Hosted by the Swedish Embassy in Bangkok together with Business Sweden and the Thai-Swedish Chamber of Commerce and co-hosted by the Royal Thai Embassy in Stockholm to promote collaborative networking on sustainability efforts between the two countries, the event was presided by His Excellency H.E. Mr. Jon Åström Gröndahl, Ambassador of Sweden to Thailand and Her Excellency Mrs. Kanchana Patarachoke, Ambassador of Thailand to Sweden.

The forum included three active parallel sessions on Sustainable Smart Cities, Decent Work is Good for Business, and Higher Education: Green Solutions and Innovations. Following the online forum, SUT's Vice Rector for Engagement, Innovation and Entrepreneurship and Director for International Affairs joined a post-event reception at the Swedish residence for an in-person networking, idea exchange and collaboration discussions. SUT's efforts received wide interest from the forum and enabled promising future collaborations with Swedish institutions.
