SUT: Innovation & Sustainable University

As an innovation and sustainable university, "SUT" is committed to being an **academic tech hub & collaborator** in science, research and innovation as well as social engagement for local and global community empowerment. To serve and to solve complex-community-based problems towards the **social development goals (SDGs)**, SUT is open to exploring opportunities and collaborations, joint research and partnerships through our concrete areas of science and technology, engineering, agricultural technology, health sciences, digital technology and entrepreneurship. Work integrated research through **cooperative education philosophy** helps to support strong academic, industrial and social partnerships. SUT as a **collaborative innovator** encourages and inspires people to **innovate their future**, regarding the SUT university core value "PRIDE".

SUT

Academic Tech Hub & Collaboration

SUT mission contributes to the society via education and research innovation. A diverse range of programs encourage students to find their learning, literacy, and life skills to identify themselves for living in the 21st century society. Our engagement in sustainability development helps to redesign problem in human centric ways and to ideate new solutions to tackle problems in social, environmental and economics view points for the benefits of human beings as our priority.

Research Innovation & Engagement

SUT was shortlisted for **Outstanding Contribution to Environmental Leadership** in **THE Awards Asia 2023** for its Innovations for Climate Neutral Sustainable Tourism at Khao Yai National Park.

ANSEEKhaoYai

SUT innovation products range from fast-growing and disease resistant korat chicken strains to offer high quality food nutrients plus high collagen, with good governance. koratchicken.sut.ac.th

2X Plus - sperm sorting technology for farming to give higher than 80% female, **autoclavable-bioplastic packaging**, **bio-degradable cushions from rubber trees**, **plasma technology for disinfection** installed at hospitals and buildings and for **nitrogen capture fertilizers**, and so much more. Our research innovation supports SUT - SDGs strategies to solve problems and create new values & solutions for our partners and communities.
